Brunel's research is world-leading, with highly cited papers and a grant income that has doubled in the past decade. Research programmes are often developed in partnership with industry and we are committed to a culture of collaboration that truly meets the global challenges of the 21st Century. Brunel is well-established within the top quarter of research universities in the UK according to the Research Excellence Framework 2014, with a number of areas of study considered world-leading and internationally excellent for their research impact.

Daphne Jackson Fellowships

The Daphne Jackson Trust is dedicated to returning scientists, engineers, technologists and mathematicians to their careers following a break taken for family, caring or health reasons.

Daphne Jackson Fellowships are unique. They offer STEM professionals wishing to return to a research career after a break of two or more years, the opportunity to balance an individually tailored retraining programme with a challenging research project in a suitably supportive environment.

The Fellowships consist of a challenging research project and at least 100 hours retraining per year. The unparalleled support offered by the Trust's Fellowship Advisors and administrative staff, coupled with mentoring and retraining provided during the Fellowship, give returners the confidence and skills they need to successfully return to research.
